This exception shall be evidenced by the Dismissal of the Citation by the Municipal Court of the City of Newark and then such liability shall be limited to the amount charged for the towing and storage services and incidental transportation services occasioned by the illegal or erroneous tow. Nothing in this section shall be construed to include any liability for property damage to the vehicle from the tow. Liability for all such claims for damages under these circumstances shall remain with the "Official Tower" as per the hold harmless agreement above). "Official Towers" shall enter into this hold harmless agreement in a form to be prepared by the Law Department prior to being included on the "Official Tower's" list.

Neither party shall be construed in any manner whatsoever to be an employee of the other, nor shall any employee or agent furnished by any party be construed to be an employee or agent of the other party. E. The City of Newark shall not be liable or responsible for compensating the "Official Towers" for any of the services performed pursuant to this Ordinance unless those services are used for City owned vehicles and those vehicles designated "Hold for investigation" by the City of Newark Police Department. D. If, after considering the matter, the Mayor or designee and the City Council determine that one (1) of the causes for revocation of the "Official Tower's" license exists pursuant to this Ordinance, the license shall be revoked and the tower shall surrender same to the Business Administrator within twenty-four (24) hours.

E. Nothing contained herein shall be construed to prevent or limit the right of any person to commence or maintain an action for damages or any other relief directly against an "Official Tower" in a court of competent jurisdiction of the State of New Jersey.

13. VIOLATIONS AND PENALTIES

A. Any person who shall violate any of the provisions of this Ordinance shall, upon conviction by a Judge of the Municipal Court of the City of Newark, be subject to a fine not to exceed one thousand dollars (\$1,000.00); and each violation of any of the provisions of this Ordinance and each day the same is violated shall be taken and deemed to be a separate and distinct offense.

RE: Dente/Newark Ordinance
Our File No. P-19,563

Dear Sir:

Be advised that we represent Dente Brothers Towing, a towing contractor presently performing towing services for the Municipality, which company has been serving the Municipality with loyalty and honorably for many years.

January 4, 1995

At my client's request. I have reviewed the proposed Ordinance establishing a rotation list of towers for the Municipality, which towers would provide towing and storage services without the necessity for public bidding.

Kindly accept the following as commentary with respect to the contents of the proposed Ordinance which, I understand, is scheduled for second reading on Wednesday, January 4, 1995.

The purpose of this letter is to request a postponement of any vote for passage of the Ordinance pending review of the comments contained herein such that the appropriate modifications, changes, deletions or additions, as appropriate, may be accomplished.

The comments hereafter are submitted utilizing the same numbering system as contained in the Ordinance itself.

May I first point out however that recent Federal Legislation, particularly, Public Law 103-305 enacted on August 23, 1994 and effective January 1, 1995 is already Federal law and part of 49 USC Section 10102 which, may already have preempted the Municipality's ability to regulate the intrastate transportation of property including towed vehicles. The effect of that Federal Legislation should be carefully considered before this Ordinance is passed. It

may just be that the passage of this Ordinance is a direct violation of Federal statutory authority which would invalidate the attempt to impose fee schedules and other types of regulations other than those specifically allowed by the Federal statute.

With respect to the proposed Ordinance itself the following comments are presented:

1.A.(5) - there is no provision in the definition of motor vehicle accident for any accident involving other than a private passenger automobile. It is quite obvious that an accident may also involve two or more commercial vehicles without a private passenger automobile being a part of the incident.

1.A.(10) should not limit the "base of service" to the place where the tow vehicle is stationed but also should include the place where the vehicles are stored since the place of storage directly impacts upon the ability of the Newark Police Department to control the vehicles and the property.

3.B. - there should be no reason for any subcontracting since the Official Tower should be a person or entity which complies with the requirements as envisioned by the certification standards of Section 2. If the Official Tower does not qualify because he must subcontract then the license should not be issued in the first place. The only reason for subcontracting to be envisioned would be if the Official Tower did not qualify for the license. Certainly, anyone who performs services at the request of the Municipality should be subject to the very same requirements as is the "Official Tower" and therefore the subcontractor should also have a towing license.

4.(A)(2) - the information with respect to the vehicles, equipment and storage facilities is unclear and should be part of the initial Ordinance so that all prospective applicants are aware of the requirements for licensure.

January 4, 1995

4.(F) not only violates the provisions contained directly above and within Section (D) but also fails to provide any applicant with the required due process hearing for denial. Such provisions should be incorporated and the City should be mandated to act within the required time of Section (D) and Section (F) should be removed.

6.(D)(1)(b) - the location of the storage area "in a area that has a common border with any of the five (5) wards of the City of Newark" is ambiguous and not in the best interests of the Municipality. It is conceivable that the definition could be to allow a storage area completely on the far side of a Municipality which touches the City of Newark. This could mean that the storage area may not be even remotely close to the City or have any location which is convenient for anyone within the Municipality, particularly the citizens of the City of Newark. Certainly, a storage area at the farthest distance away from the border of any Municipality with the City of Newark is unlikely to have any rational relationship to the exercise of the police power of the City in its ability to govern and monitor both the area of storage or the vehicles which are stored on its behalf.

7.A. - the provision for allowing towing in more than one ward at the same time and the requirement that there be sufficient equipment and personnel to perform those services is not consistent with the requirements set forth in paragraph 6, since there is nothing whatsoever in paragraph 6 which remotely suggests that the minimum requirements are on a "per ward" basis.

7.B. - there is no reason for response time to be up to one hour for any vehicle to respond. If the tower cannot respond or does not have the available vehicles to respond then that should constitute a violation of the Ordinance. Since paragraph 6 requires a certain amount of vehicles and personnel, either the tower has the vehicle and personnel capable of supplying the services to the Municipality or it doesn't. Certainly, there should be no reason why any Official Tower should not be able to respond to the scene of any incident where the health, safety and welfare of the public must be protected in any time which exceeds 15 or 20 minutes.

10.A.I. - the towing fee for private passenger vehicles of \$65.00 directly violates the provisions of N.J.A.C. 11:3-38.1 which are incorporated into the Ordinance by the Ordinance itself. Accordingly, there is no reason to include a illegal towing charge under the guise of a permitted charge when the Municipality knows full well at the present time that it is violative of State law. Additionally, reference is again made to the Federal Legislation which may very well preempt this complete paragraph.

10.A.II - the charge for storage of \$15.00 per day when the number of spaces required is a minimum of 50 also violates both the New Jersey Administrative Code and potentially the Federal Legislation.

10.A.VII. - we believe that the caption should read "Any Other Service Not Enumerated Above".

10.A.VII(ii) - the \$65.00 per hour rate clearly violates the New Jersey Administrative Code and has no rational relationship to the requirements of that Code.

10.A. - there is nothing whatever in the fee schedule which relates to recovery services other than winching. There are many services that are performed by tow vehicles which are not winching and there are many services which are performed other than winching, for instance, the use of air bags. There should be additional fees allowed for any services relating to extraordinary work, recovery services and additional services related to heavy duty vehicles which are other than winching.

10.D. does make any sense as it relates to charges other than "basic towing services". For instance, it does not include, as indicated hereinabove, services relating to heavy duty vehicles other than winching. Additionally, it is assumed that, in accordance with the definition of "basic towing service" as set forth in Section 1.A.(2), a tow from a storage facility constitutes a separate towing procedure. This certainly is consistent with the definition in the Ordinance and it is assumed that this follows the intent of the Municipality in defining when a charge for a tow can be assessed. For instance, when a vehicle is removed through the use of a heavy duty hi/lo or other conveying equipment, a separate charge should be allowed, particularly in those instances when it is loaded onto another vehicle for removal from the area outside the storage facility.

SUPPLEMENTAL:

1. There does not appear to be any provision within the Ordinance with respect to disposition of vehicles that have been towed and stored by any Official Tower and not removed by the owner of the vehicle. This should be the obligation of the Municipality pursuant to N.J.S.A. 39:10A-1, et. seq.

2. There is no provision whatever in the Ordinance with respect to the obligation of the police department to issue releases for vehicles prior to their being removed from the storage facility by the owner. Provisions mandating issuance of appropriate releases should be made a part of the ordinance.

3. In the event there is personal property within any vehicle which is towed, a list of the personal property should be made at the scene and signed by the police officer in charge so that there will be no question concerning that property which is transferred to the care, custody and control of the tower.

4. Since it is a possibility that an approved tower will have a storage facility outside of the jurisdictional boundaries of the City of Newark, there should be provisions in the Ordinance authorizing the police department to exercise their jurisdiction in other Municipalities and while on the property of the tower,

January 4, 1995

particularly when the need is to inspect the premises and the vehicles thereon. It is conceivable that the Newark Police Department will have no jurisdiction to do anything with respect to any vehicles on premises which are outside of the boundaries of the City, those vehicles and property being solely within the jurisdiction of the police department of the Municipality where the property is situated.

It appears that there is substantial question as to whether the Ordinance indeed complies with the needs of the citizens of the City of Newark or indeed with the intent of the Newark Municipal Council, it is requested that the Council adjourn any consideration for passage of the Ordinance until future review and amendments be effectuated.

Respectfully submitted,

WILLIAM J. POLLINGER, P.A.

Ordinance to amend Title Twenty-One, Chapter Three, Section One, of the Revised Ordinances of the City of Newark, New Jersey (1966), as amended and supplemented (To adjust permission for discharge).

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

That Title 21, Sewers and Sewage Disposal, Chapter 3 Public Sewers; Regulation of Discharge, is amended to include a new Chapter 3B to read in its entirety as follows:

CHAPTER 3B. PUBLIC SEWERS, JMEUC REQUIREMENTS.

21:3B- 1. Ground Water Acceptance Regulation.

No person shall discharge or cause to be discharged any storm water, surface water, ground water (except as set forth below), roof runoff, subsurface drainage, uncontaminated cooling water, or unpolluted industrial process waters to any sanitary sewer.

(a) Direct or indirect discharge of ground water to the Joint Meeting Wastewater Treatment Facilities shall only be permitted under the following circumstances:

1. The proposed discharger or applicant has filed an application for and has been issued a Non-Domestic Wastewater Discharge Permit ("Permit") by the Joint Meeting.

2. For long-term, continuous discharges, the municipality where the remediation project of the applicant is located or, at the election of the municipality, the proposed discharger or applicant ("Municipality/Applicant") will be required to identify and eliminate two gallons of infiltration/inflow to the Joint Meeting Wastewater Treatment Facilities for each gallon of ground water to be delivered into the Joint Meeting Wastewater Treatment Facilities on a daily average over the life of the remediation project discharge (2 to 1 offset).

(a) The location(s) of the remedial work to be performed by the Municipality/Applicant shall be identified by the municipality and agreed to by the Joint Meeting, through the use of the Phase III Sewer System Evaluation Report, prepared by Hazen and Sawyer, dated August, 1983 and as supplemented, which was previously distributed by Joint Meeting to each member municipality in the Joint Meeting service area, or such other report as may be available in the case of non-member municipalities.

(b) The remedial work to be performed by the Municipality/Applicant shall be completed within a time period that shall not exceed one-half of the time frame of the remediation project discharge estimated by the proposed discharger or applicant and approved by the municipality and the Joint Meeting. In the event that extraordinary, unforeseen circumstances occur that will affect the ability of the Municipality/Applicant to meet the time period previously agreed upon by the parties for completion of the infiltration/inflow

remedial work, the Municipality/Applicant may seek an extension of the time period through the filing of a written request not less than sixty (60) days before a previously defined and agreed upon milestone, fully describing the extraordinary, unforeseen circumstances and specifying the additional time necessary to complete the remedial work as a result thereof. Such requests for extensions will be considered by the Joint Meeting on a case-by-case basis, and an extension of time shall not be unreasonably withheld.

(c) An applicant may not discharge ground water to the Joint Meeting Wastewater Treatment Facilities until it has obtained a Permit and an agreement is reached between the Joint Meeting and the municipality and/or the applicant upon the terms of the remediation work to be performed to satisfy the 2 to 1 offset policy set forth in this regulation.

(d) At intervals to be mutually agreed upon by the Municipality/Applicant and the Joint Meeting, the Municipality/Applicant shall be required to demonstrate, in written progress reports, to the satisfaction of the Joint Meeting that the Municipality/Applicant is making definable progress in performing the remedial work so as to be able to complete the work within the time frame established in accordance with Section 2 (b) above.

(e) The Engineer of the municipality where the remedial work has been performed will be required to submit to Joint Meeting a certification stating that remedial work has been completed and such certification must be submitted within one week of the date of the completion of the work.

(f) The Municipality/Applicant will be required to submit to the Joint Meeting at the time the location(s) of the remedial work is identified by the municipality and agreed to by the Joint Meeting a Performance Bond in the amount of 100% of the value of the remedial work to ensure that such work is completely performed.

3. (a) For short-term, batch discharges, the Municipality/Applicant will be required to identify and eliminate two gallons of infiltration/inflow into the Joint Meeting Wastewater Treatment facilities for each gallon of ground water to be delivered to the Joint Meeting Treatment Works on a daily average over the life of the remediation project discharge (2 to 1 offset) or

(b) The material to be discharged from the site of the remediation project may be delivered in tanker vehicles to the Joint Meeting Wastewater Treatment Facilities in Elizabeth, New Jersey for direct discharge at a rate of 3 cents per gallon, for example, \$150 per 5,000 gallon trailer, to compensate Joint Meeting for the Costs to sample, monitor and process the discharge. The use of this option will be at the reasonable discretion of the Joint Meeting in order to avoid the arrival of a number of trailers that will adversely impact the performance of treatment operations by the Joint Meeting.

4. In the event the 2 to 1 offset option is selected with respect to short-term, batch discharges, then the following procedures shall apply:

(a) The location(s) of the remedial work to be performed by the Municipality/Applicant shall be identified by the municipality and agreed to by the Joint Meeting, through the use of the Phase III Sewer System Evaluation Report, prepared by Hazen and Sawyer, dated August, 1983 and as supplemented, which was previously distributed by Joint Meeting to each member municipality in the Joint Meeting service area, or such other report as may be available in the case of non-member municipalities.

(b) The remedial work to be performed by the Municipality/Applicant shall be completed within a time period that shall not exceed one-half of the time frame of the remediation project discharge estimated by the proposed discharger or applicant and approved by the municipality and the Joint Meeting. In the event that extraordinary, unforeseen circumstances occur that will affect the ability of the Municipality/Applicant to meet the time period previously agreed upon by the parties for completion of the infiltration/inflow remedial work, the Municipality/Applicant may seek an extension of the time period through the filing of a written request not less than sixty (60) days before a previously defined and agreed upon milestone, fully describing the extraordinary, unforeseen circumstances and specifying the additional time necessary to complete the remedial work as a result thereof. Such requests for extensions will be considered by the Joint Meeting on a case-by-case basis, and an extension of time shall not be unreasonably withheld.

(c) An applicant may not discharge ground water to the Joint Meeting Wastewater Treatment Facilities until it has obtained a Permit and an agreement is reached between the Joint Meeting and the municipality and/or the applicant upon the terms of the remediation work to be performed to satisfy the 2 to 1 offset policy set forth in this regulation should this option be selected with respect to a short-term, batch discharge.

(d) At intervals to be mutually agreed upon by the Municipality/Applicant and the Joint Meeting, the Municipality/Applicant shall be required to demonstrate, in written progress reports, to the satisfaction of the Joint Meeting that the Municipality/Applicant is making definable progress in performing the remedial work so as to be able to complete the work within the time frame established in accordance with Section 4 (b) above.

(e) The Engineer of the municipality where the remedial work has been performed will be required to submit to Joint Meeting a certification stating that remedial work has been completed and such certification must be submitted within one week of the date of the completion of the work.

(f) The Municipality/Applicant will be required to submit to the Joint Meeting at the time the location(s) of the remedial work is identified by the municipality and agreed to by the Joint Meeting a Performance Bond in the amount of 100% of the value of the remedial work to ensure that such work is completely performed.

5. The groundwater to be discharged to the Joint Meeting Wastewater Treatment Facilities pursuant to a Permit will be, at all times, subject to analyses by the Joint Meeting, at the sole cost of the applicant, to ensure that the proposed discharge shall meet the quality limits as set forth in these Sewer Use Rules and Regulations. At any time during the period of the discharge of ground water to the Joint Meeting, a failure by the applicant to meet such quality limits shall be the basis for a revocation of the Permit and a discontinuation of the discharge, and/or such enforcement measures as are authorized by law to be taken by the Joint Meeting.

6. The proposed discharger or applicant shall be obligated to institute pretreatment measures prior to the direct or indirect discharge of ground water to the Joint Meeting in event the ground water fails to meet the parameters for acceptance of the discharge set forth in the Sewer Use Rules and Regulations.

7. Credits for future discharges of ground water through the removal of infiltration/inflow pursuant to the above provisions may be accumulated or "banked"; however, such credits may only be transferred in accordance with ownership of the site identified as the source of ground water at the time of the performance of the remediation work.

8. To the extent that any previous ordinance or resolution is inconsistent with or contradictory hereto, said ordinance or resolution is hereby repealed or amended to the extent necessary to make it consistent herewith.

9. The provisions of this Ordinance are severable. To the extent any clause, phrase, sentence, paragraph or provision of this Ordinance shall be declared invalid, illegal or unconstitutional, the remaining provisions shall continue in full force and effect.

10. This Ordinance shall take effect twenty (20) days after the first publication thereof after final adoption, as provided by said Local Law.

The City shall not directly or indirectly use or permit the use of any proceeds of such obligations or any other funds of the City, or take or omit to take any action, that would cause such obligations to be "*arbitrage bonds*" within the meaning of Section 148(a) of the Code, and will comply with all requirements of Section 148 of the Code to the extent applicable to the bonds and notes authorized hereby and all proceeds thereof, including without limitations restricting the yield on the investment of any moneys in the manner and to the extent necessary to comply with said Section 148 of the Code.

The bonds or notes issued pursuant to this Ordinance to pay Project

January 24, 1995

The improvements and purposes described in Section 3 of this Bond Ordinance are hereby authorized as capital improvements to be made or acquired by the City of Newark, County of Essex, State of New Jersey (hereinafter the "City"). For said improvements or purposes stated in Section 3 hereof, there is hereby appropriated the sum of \$4,300,000. No down-payment is required pursuant to N.J.S.A. 40A:2-11(c) as this Bond Ordinance authorizes obligations solely for a purpose referred to in N.J.S.A. 40A:2-7(d) requiring the Local Finance Board as defined therein to endorse its approval upon a certified copy of this bond ordinance as adopted on first reading; and as the bond ordinance also authorizes obligations being issued for purposes which are self-liquidating and deductible from the gross debt of the City as set forth in N.J.S.A. 40A:2-7(h), also therefore exempting it, on a separate and independent basis, from the down-payment requirement. Notwithstanding the foregoing, the sum of \$215,000 is herein appropriated as the down-payment from the Water Utility Capital Improvement Fund, said \$215,000 for said down-payment purposes is

In anticipation of the issuance of said bonds, negotiable notes of the City in a principal amount not exceeding \$4,085,000 are hereby authorized to be issued pursuant to and within the limitations prescribed by said Law. In the event that bonds are issued pursuant to this Bond Ordinance, the aggregate amount of notes hereby authorized to be issued shall be reduced by an amount equal to the principal amount of the bonds so issued. If the aggregate amount of outstanding bonds and notes issued pursuant to this bond ordinance shall at any time exceed \$4,085,000, the moneys raised by the issuance of said bonds shall, to not less than the amount of such excess, be applied to the payment of such notes then outstanding, at maturity. Each bond anticipation note issued pursuant to this bond ordinance shall be dated on or about the date of its issuance and shall be payable not more than one year from its date, shall bear interest at a rate per annum as may be hereafter determined within the limitations prescribed by law and may be renewed from time to time pursuant to and within the limitations prescribed by the Local Bond Law. Each of said notes shall be signed and shall be under the seal of said City and attested as permitted by law. The appropriate City officers are hereby authorized to execute said notes and to issue said notes in such form as they may adopt in conformity with the law. The power to determine all matters in connection with this Ordinance and also the power to sell said notes, is hereby delegated to the Chief Financial Officer of the City (the

June 21, 1995

"Financial Officer"), who is hereby authorized to sell said notes either at one time or from time to time in the manner provided by law and the Financial Officer's signature upon the notes shall be conclusive evidence as to all such determinations. The Financial Officer is authorized and directed to report in writing to the governing body at the meeting next succeeding the date when any sale or delivery of notes pursuant to this Bond Ordinance is made, such report to include the principal amount, description, interest rate and maturity of the notes sold, the price obtained and the name of the purchaser.
